Education

Universidade do minho

Sep. 2018 – May 2022

Bachelor's degree in Computer Science

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Systems Programming
- Software Methodology
- Internet Technology
- Computer Architecture

Experience

Accenture

Oct 2022 – Present

Software Engineer

Braga

- Collaborate as a Software Engineer within an Agile Scrum team, focusing on backend development.
- Design and implement scalable, high-performance features using Spring Boot, Java, and related technologies.
- Leverage Jenkins to automate build processes and test execution, enhancing the continuous integration pipeline.
- Write unit, integration, and automation tests to ensure feature reliability and quality.

Relevant Projects

Personal Website | *React, Tailwind, Next.js*

- Developed a personal website. [View Website](#)

Order Events Sender | *Spring Boot, Java, Kafka*

- Developed an API to publish messages to a Kafka topic based on the corresponding endpoint.

Order Events Processor | *Spring Boot, Java, Kafka, MongoDB*

- Built a microservice that listens to Kafka topics, processing messages to create, update, or delete orders in the database.
